OLD BUSINESS – No Old Business

## NEW BUSINESS

### **Finance Report** (Maxine Coleman)

**Statement of Activities** (through November 30). SUD Block Grant expenditures and revenue are under budget. No areas of concern were identified. Requests for available funds that may be available have been submitted to the state. Unallocated prevention funds for Women's Specialty Services will be reallocated to Treatment to avoid lapsing funds. This will be reflected in the next budget amendment.

To date, no PA2 funds have been received (PA2 funds are not distributed until the second quarter of the fiscal year).

SUD Medicaid/Healthy Michigan expenditures are under projected budget.

### **FY25 Budget Amendment #1**

The initial FY25 budget reflected projections were requested in July, 2024. Providers were given an opportunity to request changes, and those are reflected in the budget adjustment. Medicaid/Healthy Michigan SUD revenue projections have been updated and additional PA2 funds are reflected in the budget adjustment.

LRE OPB 25-003 Motion: To approve Amendment #1 to the allocation of FY25 PA2 funds for the LRE SUD Budget as presented and to advise and recommend that the LRE Board approve the amended FY25 non-PA2 fund budgets for SUD services as presented.

### **Community Mental Health of Ottawa County PA2 Funding -Special Project Requests**

Joel Ebberts, CMHOC SUD Program Supervisor, provided information on the program for which funds are being requested. The program was implemented several years ago, and the requested funds will supplement SOR funding for the cost of medications in the jail. CMHOC works with their in-house pharmacy to provide the medications. Individuals that come into the jail are assessed and anyone screened as high risk meets with a recovery coach. Individual and group therapy is available. CMHOC works with community providers to enroll individuals into treatment when they are released from the jail. Medical services are provided through jail medical staff and CMHOC staff coordinate with the prescriber.

LRE OPB 25-004 Motion: To approve Community Mental Health of Ottawa County's request to use reserve Ottawa County PA2 funds in the amount of \$12,000 to supplement grant funding to provide MAT medications within Ottawa County Jail.

Moved by: Welford

Support: Parnin

MOTION CARRIED

LRE OPB 25-005 Motion: To approve Community Mental Health of Ottawa County's request to use reserve Ottawa County PA2 funds in the amount \$16,382 to fund a portion of a Prevention Specialist position to conduct prevention related activities to decrease stigma, prevent prescription drug misuse, and promote overdose prevention. Funding will also be used to support Ottawa County's Recovery Fest celebration.

### **N180 PA2 Funding – FY25 Special Project**

The 100 in 100 project was initiated in a partnership with Kent County, City of Grand Rapids, and community providers. Community is working to provide housing to 100 chronically homeless individuals in 100 days. N180 will provide case managers to be available to support individuals involved in the program who are ready to start or continue recovery.

LRE OPB 25-006 Motion: To approve Network180's request to use reserve Kent County PA2 funds in the amount of \$294,060 to fund the 100 in 100 initiative.

Moved by: Stone

Support: Cole-Mickens

MOTION CARRIED

### **N180 Request for Additional PA2 Funding (FY24)**

Family Engagement Team services are designed to engage individuals and keep kids in their home when at risk of removal due to parental substance use issues. Network180 is investigating how these services might fit into the CCBHC program and funding, but currently PA2 funds are the most appropriate for these programs at this time. These funds will be used to reduce N180's projected Medicaid deficit.

LRE OPB 25-007 Motion: To approve the transfer of Kent County Reserve PA2 funds in the total amount of \$1,256,139.47 (\$345,112.89 for Recovery Management Services; 911,026.58 for Family Engagement Team (FET) services to offset budget shortfalls for FY 2024.

## STATE/REGIONAL UPDATES

### **Contracts**

- i. FY25 PIHP/CMHSP Contract – LRE has been working with Member CMHSPs to develop the sub-contract. The contract with all five members has been fully executed.
- ii. MDHHS/PIHP Contract – The FY25 contract included language that was concerning for many of the PIHPs. Five of the PIHPs in the state have determined that they will not sign the contract until these issues are resolved. Four of the PIHPs have entered into litigation; LRE Board will make a determination on next steps during the January meeting.

### **Grant Updates - Amanda Tarantowski**

- i. Section 250 Funds - \$1 million dollars in Opiate Settlement Funds have been allocated and must be spent by the end of September. Proposed projects and budgets have been submitted to the state.
- ii. ARPA – WSS – WMCMH counties do not have a dedicated WSS provider within their counties. LRE has been in discussion with DHD 10, who will use ARPA funds toward development of WSS services in the WM area.

## PREVENTION/TREATMENT UPDATES

### **Prevention – Stephanie VanDerKooi**

- i. No Cigs for Our Kids Report – LRE is responsible for ensuring that retailers do not sell tobacco products to minors.
- ii. FY24 Prevention Summary of Activities report provides an overview of prevention activities in 2024.

### **Treatment**

- i. FY24-Q3 Treatment Evaluation Update – time to service for IV drug users and individuals seeking MAT was down from the previous quarter.
- ii. Priority Populations – deferred to a future meeting
- iii. MI/SUD Locator - MiRecovery tool is available on the LRE Website. MDHHS has developed their own tool that is available.

## ROUND TABLE

### **Opiate Settlement Updates**

Oceana County is preparing to appoint the community committee.

Mr. Sweeney commented on the primary function of this board, which is to allocate and safeguard PA2 funds. He expressed concerns about a provider treating PA2 funds as a cash reserve when they are unable to stay within budget. PA2 funds are for all providers, not just the CMHSPs. Reserve funds are not a stopgap for providers who do not accurately submit their budgets. Providing reserve funds to address budget shortfalls sends the message that providers do not need to stay within approved budgets. The OPB has an obligation to safeguard PA2 funds, which are at risk of being used to cover budgetary shortfalls.

**FY2018**

**On 2/6/2019 LRE requested \$ 5,315,565.70**

**Use of Reserve Funds** - To address the FY2018 Medicaid and Healthy Michigan regional budget deficit. Each County's PA2 reserve funds shall only be applied against that county's Medicaid/Healthy Michigan operating deficit.

**Per 10/3/2018 OPB Meeting Minutes**

**PA2 Reserve Funding Program Grants Update** – A policy and application for providers to apply for reserve PA2 funds for special projects was developed early in 2019. The process was completed over the summer, with applications being submitted and reviewed. Unfortunately, due to the regional deficit, these project expenditures are not possible at this time. If, after final regional budget numbers allow for these grants, the applications will be presented to the OPB to discuss possible grants.

**1. The total amount of reserve PA2 funds being requested.**

- a. Recovery Management- \$744,732
- b. Family Engagement Program- \$1,134,837

Total= \$1,879,569

**2. A justification for why the reserve PA2 funds are needed.**

Network180 offers two treatment models-Recovery Management (RM) and Family Engagement Program (FEP)-to enhance existing Substance Use Disorder (SUD) services in Kent County. RM and FEP are offered when more traditional service modalities have been ineffective for individuals with a history of poor treatment outcomes. Due to the comprehensive nature of the service delivery, which offers higher provider reimbursement rates through an Alternative Payment Model (APM), RM and FEP meet the needs of individuals who need a greater level of support on their recovery journey. The APM allows for greater indirect service costs necessary to engage with individuals who have historically been unwilling or unable to engage with treatment, have not had significant periods of recovery, and/or lack continuity of care.

Network180 recognizes certain individuals require enhanced supports to be successful in their recovery journey, so has been able to accommodate the additional costs of these programs. However, Network180 is currently examining its ability to continue operating these enhanced programs given the current funding environment. These programs are not able to be funded under traditional Medicaid and are being shifted as an appropriate expenditure under PA2 while it evaluates long-term sustainability. This shift allows Network180 time to evaluate the program models and ensure SUD treatment access in Kent County continues to meet the needs of the county's citizens.

**3. A description of the programs/services and applicable service codes for which the funds are intended.**

Recovery Management- Recovery Management (RM) services are meant to enhance current traditional OP treatment when an individual has a history of poor treatment retention, lacks continuity of care, and lacks significant periods of recovery. Individuals tend to have significant biopsychosocial issues that contribute to poor treatment retention and continuity of care.

Family Engagement Program- Individuals with a substance abuse or dependence diagnosis and who have children in their care aged 1-17 years old. Participants in this program are court involved and at risk for losing custody of dependent children based on their use of substances.

**4. How funds will be applied.**

Funds will be utilized to pay for the full FY25 program expenses for both programs including staff salaries/wages and fringes, 10% indirect cost, 20% overhead cost.

**5. A complete budget and budget narrative.**

See attached

**6. A sustainability plan.**

Network180 leadership is currently evaluating these programs for long-term sustainability using available Medicaid funding beginning in FY26. Network180 will be working with existing RM/FEP providers to develop strategies for more cost-effective service delivery while recognizing the enhanced needs of some individuals seeking SUD treatment.

**7. A list of other sources of funding (Block Grant, Specialty Grant, Medicaid, other) that have been considered and why these sources were not used.**

- Medicaid: Network180 is currently projecting a budget shortfall for FY25. Shifting these programs to PA2 funding for FY25 is a component of Network180's ongoing deficit reduction planning.
- SUD Block Grant: Network180 has maximized the available SUD Block Grant funding for FY25. Re-allocating funding to accommodate these programs would have a detrimental impact on other existing community programs focused on treatment for individuals experiencing SUD.
- Specialty Grant: Specialty grant funds are approved and applied to specific projects and programs in the system. There are no available FY25 funds that can be redirected to expenses elsewhere.
- PA2 Funding: Network180 has allocated its FY25 PA2 funding to other projects. Re-allocating funding to accommodate these programs would have a detrimental impact on other existing community programs focused on treatment for individuals experiencing SUD.

5000 Hakes Dr, Suite 500  
Norton Shores, MI 49441

Dear Ms. Tarantowski:

I am writing this letter to request a budget increase for Fiscal Year 2025 for PA2. HealthWest would like to increase our budget by \$80,470.00 for a total of \$355,071.00.

Due to funding cuts in other areas, HealthWest has budgeted Recovery Support Services with Life Align and Every Woman's Place. We did make cuts in other areas to assist with the addition of these providers. However, we still came up \$80,470.00 short to meet our community demands.

Discretionary funds are intended for FOC Recovery Management Team, support for CCAR Trainings in Muskegon, support for staffing of Fresh Coast Alliance to assist individuals with accessing SUD and Recovery Supports within the community.

The funds will be reimbursed to the providers based on the applicable H0038 encounters or Financial Status Reports monthly.

A budget amendment along with a budget narrative has been submitted via SharePoint.

To sustain services without additional PA2 funding, we are working to move the LEAD team into a billable SUD Treatment Team. They are currently being trained and working toward credentialing. The team will make sure that all clients will have an ASAM Continuum, SUD BHTEDS, working more like a clinical treatment team and creating treatment plans. We are also applying for additional grant funds due to services being provided in the Jail. Should Medicaid approve the extension of the clients plan when incarcerated for a longer period, this will help shore up Medicaid billing process and procedures.

Other sources that were considered but unavailable or unallowable were the SOR Grant, SUD Block Grant, and a BJA Grants. However, due to limited funds available and a high demand of SUD services and support needed within the community, HealthWest was unable to allocate any funds from other sources.

## **MDHHS launches initiative to strengthen behavioral health care access, quality and choice for Michigan families**

*Online survey offered to identify opportunities and improvements to Medicaid behavioral health services prior to selecting Pre-Paid Inpatient Health Plans*

LANSING, Mich. – The Michigan Department of Health and Human Services (MDHHS) is launching an initiative designed to improve access to quality behavioral health care. As part of this effort, MDHHS is seeking public input through an online survey as the department moves to a competitive procurement process for the state’s Pre-Paid Inpatient Health Plan (PIHP) contracts.

This initiative will help to increase consumer choice and access to services while preserving the Community Mental Health Services Programs (CMHSPs) many Medicaid beneficiaries go to for behavioral health care services today.

“Michigan Medicaid beneficiaries deserve access to behavioral health care services when and where they need them,” said Elizabeth Hertel, MDHHS director. “This effort brings together the investment, creativity and commitment of the department and its partners – including community mental health, health care providers, individuals served and communities – to create a more accessible and person-centered system of care dedicated to ensuring Michigan residents a healthier future.”

Michigan’s specialty behavioral health system provides health care coverage to approximately 300,000 Michiganders, including adults with serious mental illness, children with serious emotional disturbance, individuals with substance use disorder and individuals with intellectual and developmental disabilities. MDHHS contracts with PIHPs as the regional Medicaid managed care entity.

PIHPs are charged with providing adequate supports and services to those in need of the specialty behavioral health benefit and are key to achieving the department’s mission to improve the health, safety and prosperity of residents. PIHPs manage provider networks including CMHSPs and behavioral health providers.

“The specialty behavioral health system needs to be more accountable and responsive to the needs of people served. It’s time for a change,” said Sherri Boyd, executive director, The Arc Michigan.

Through an [online survey](#), MDHHS seeks input from people currently enrolled in Medicaid and their families, advocacy groups, community-based organizations, federally recognized tribal governments, providers of health care, behavioral health and other interested parties to identify opportunities for innovation and improvement in the services and supports provided through the PIHP system.

Survey questions seek feedback on priorities to help determine where the state should focus its efforts. Examples include strengthening person-centered care, conflict-free access and planning, increasing access to providers, beneficiary behavioral health plan choice, beneficiary provider choice, enhancing quality, strengthening outcomes and using data to drive quality.

Feedback received will help guide planning and decision-making in preparation for the implementation of new PIHP behavioral health plan contracts, as well as other MDHHS efforts to improve the health of residents served by the programs.

Survey responses must be submitted through the [online survey](#) no later than 5 p.m., Monday, March 31. The Arc Michigan, The Mental Health Association in Michigan and other advocacy organizations are working with MDHHS to include the voices of individuals served and their families who may not have internet access, have alternative communication needs or would prefer to work through an advocacy organization.
